CHAIRMAN'S STATEMENT

On behalf of the Board of Directors of DUFU TECHNOLOGY CORP. BERHAD, I am pleased to present the Annual Report and Audited Financial Statements of the Group and of the Company for the financial year ended 31 December 2006. This is the first Annual Report after the listing of the Company on the Second Board of Bursa Malaysia Securities Berhad (Bursa Securities) on 28 February 2007.

Financial Performance

Despite the recent competitive business environment and inflationary pressures, the Group's operations and business continued to grow under the favorable economic atmospheres that it operated in and has achieved a set of improved and satisfactory results for financial year 2006. For the financial year under review, the Group registered a revenue and profit after tax of RM90.6 million and RM7.862 million respectively. With this, the Group basic earnings per share is at 12.94 sen. The Group continues to maintain a set of healthy and financially sound balance sheet with net assets of RM40.775 million and surplus cash of RM3.578 million for future expansion and diversification. The overall financial performance of the Group for the financial year 2006 reflects our prudent corporate strategic to remain focused on our core competencies, with continuous effort put in broadening our product mix and revenue base.

Operation Review

In order to stay competitive with the uncertainty and challenging business environment, the Board of Directors together with its management constantly reviews the entire Group's operations and continues its structured approach to pursue the long term growth and prospects by upgrading the engineering capabilities, manufacturing facilities and technical know-how, strategically moving to high-end value added new products, and identifying new business opportunities.

Our existing core businesses, namely manufacturing and assembling of precision machining of vice, computer peripherals and parts for hard disk drive and manufacturing of precision steel moulds and parts have played an important role in bringing the Group to achieve a favorable growth in term of revenue and earning for the financial year 2006. The precision machining division is the major businesses and principal revenue contributor in the Group's revenue during the financial year under review. As such, the Group will continue to aim at its strength to be the main player for the Hard Disk Drive "HDD" industry and at the same time diversify itself to other upcoming industry such as the Industrial Sensors Industry. We will continue its endeavor to secure more business contracts from new and existing customers in the following financial year with its efforts in continuous integration of new capabilities in manufacturing, engineering and distribution and continuing efforts to solicit new business partners in diversified industries.

Prospect and Outlook

Prospect for the HDD market remains very promising with the demand for global shipment expect to rise significantly for the coming years. With this increase, the Group will continue to enjoy robust demand as they benefit from the continuing consumer electronics boom, fuelled by the growing use of HDDs in electronics gadgets and the miniaturization of HDDs.

The IPO exercise raised RM16.94 million in 2007, which RM7 million will be utilized to purchase new machinery. Furthermore the Group invested RM9.1 million in a new building that will double its current floor space. The new plant and additional machines to be acquired will further increase the Group's production capacity for future years.

Nevertheless, the Group remains cautious and guarded with the volatility of the industry they involved and uncertainties fueled by factors such as hiking raw materials price and effects of strengthening Ringgit towards the export proceeds. As such, in order to strengthen its position in this competitive business environment, the Group continues to implement its strategic approach to take advantage of the expected outsourcing trend, expand the capacity in tandem with the customers' growth and undertake more cost effective measures and quality deliveries to meet the customers' requirements. Marketing efforts will be stepped up also to grow the customer base and penetrate new markets that will increase the revenue and earning.

Further to this, the Board of Directors together with its management remains committed to continuously pursue excellence and strive to increase shareholders' value by insulating itself from any unforeseen unfavorable impacts and its effort to streamline and rationalize the business and is constantly looking out for new viable businesses opportunities that are synergistic to the businesses of the Group. Barring unforeseen circumstances, the Group expects better performance both in revenue and profitability in the coming year.

Acknowledgment

On behalf of the Board of Directors, I would like to express our sincere appreciation to the management and the staff of the Group for their continued efforts, commitment and contribution in instituting the strict strategic and operational measures needed to stand resilient during these challenging times. I would also like to take this opportunity to thank all our valued customers, suppliers, business associates, investors, the regulatory authorities, bankers for their continuous support and confidence in the Group especially during the listing exercise of the Group.

Finally, I wish to thank my fellow Directors for their invaluable guidance, advice and support.

ACTIVITIES OF THE AUDIT COMMITTEE

Since Dufu was only listed on the Second Board of the Bursa Securities on 28 February 2007, there was no Audit Committee Meeting held during the financial year under review.

INTERNAL AUDIT FUNCTION

The Board will engage an external professional firm to carry out internal audit function for the Group. The internal auditors report directly to the Audit Committee.

The primary role of the internal auditors is to inter-alia, assist the Audit Committee on an ongoing basis to:

- review the risk management framework
- evaluate the state of compliance with the Bursa Securities Listing Requirements, Malaysian Code on Corporate Governance ("the Code") and other statutory requirements
- provide independent, systematic and objective evaluation on the state of internal control within the Group
- review recurrent related party transactions
- perform such other functions as requested by the Audit Committee

Board's Commitments

Dufu was successfully listed on the Second Board of Bursa Malaysia Securities Berhad ('Bursa Securities") on 28 February 2007. As a listed Company, the Board of Directors of Dufu ("the Board") is committed to comply with the Malaysian Code on Corporate Governance ("the Code") which sets out the principles and recommended best practices for all public listed companies.

The Board has assessed the level of corporate governance practiced in the Group and confirms that unless otherwise stated in this statement, the Group has complied with all the principles and recommended best practices throughout the financial year ended 31 December 2006 except that the Board has not appointed a Senior Independent, Non-Executive Director to whom shareholders may address their grievances and concerns. However, the Board will collectively be responsible to address all grievances and concerns brought up by the shareholders.

A) The Board

The Board recognised its stewardship responsibility to lead the Group towards the highest level of corporate governance, strategic decisions and standard of conducts.

i) Board Balance

The present Board of Directors, headed by the chairman is comprised of:

- 3 Non-Independent Executive Directors
- 1 Non-Independent, Non-Executive Director, and
- 2 Independent Non-Executive Directors

The composition of the Board is in compliance with the Bursa Securities Listing Requirements and the Code. It also balance to reflect the interests of the major shareholders, management and minority shareholders. Collectively, the Directors bring a wide range of business and financial experience relevant to the direction of the Group.

There is a clear division of responsibilities between the Chairman and the Chief Executive Officer ("CEO") to ensure that there is a balance of power and authority. The Chairman is responsible for running the Board and ensuring that all Directors receive sufficient and relevant information on financial and non-financial matters to enable them to participate actively in Board decisions whilst the CEO has overall responsibilities over the operating units, organization effectiveness and implementation of Board's policies and decisions.

The Board is well balanced with the presence of Independent Non-Executive Directors who are of caliber and collectively provide independent assessments and judgments in the decision making process of the Board.

ii) Board Meetings

The Board governs the operations of the Group. The Board will meet regularly, at least once in a quarter, with additional meetings held as necessary to formulate and adopt strategic business plan for the Group, to evaluate the impact of risks affecting the operations of the Group and to formulate appropriate risk managing system.

Agenda and documents relevant to the Board meetings are circulated in advance to the Directors for their review before the meetings to ensure the effectiveness of the Board meetings. Any additional information requested by the Directors will be provided in timely manners.

Since Dufu was only listed on the Second Board of the Bursa Securities subsequent to year end on 28 February 2007, there was no Board of Directors meetings held during the financial year under review.

iii) Supply of information

The Chairman ensures that all Directors have full and timely access to information with an agenda on matters requiring Board's consideration issued with appropriate notice and in advance of each meeting to enable Directors to obtain further explanations during the meeting, where necessary.

The Directors meet to review and approve all corporate announcements, including the announcement of the quarterly interim financial reports, before releasing them to the Bursa Securities.

All Directors have direct access to the advice and services of the Company Secretaries. The Company Secretaries, whose appointment and removal is the responsibility of the Board collectively, are qualified professionals with the necessary experience to advise the Board.

When necessary, the Directors could request for the service of independent professional advisors at the cost of the Company.

In leading and controlling the operations of the Group, the Board is assisted by the Board of Directors of each individual subsidiary that is primarily responsible to carry out decisions made by the Board. The Executive Directors of the Company also participate in management meeting of certain subsidiaries to ensure that decisions made by the Board are disseminated and delegated effectively to the management of the subsidiaries.

iv) Directors' Training

All the Directors have attended and successfully completed the Mandatory Accreditation Programme (MAP) conducted by Bursatra Sdn. Bhd. to enhance their skills in the area of corporate governance.

The Board of Directors will assume the onus of determining or overseeing the training needs for Directors. In this respect, the Directors are encouraged to attend various external professional programmes deemed necessary in order to keep abreast with the latest developments in the market place, advances in corporate governance and to further enhance their skill and knowledge to enable them to discharge their duties as Directors in an effective manner.

v) Appointment and Re-election of Director

a) Appointment of Directors

The Code requires a formal and transparent procedure to be established for appointment of new Directors to the Board. The Code also endorses the establishment of a Nomination Committee, comprised exclusively of Non-Executive Directors, a majority of whom are Independent to propose new nominees to the Board and to assess Directors on an on-going basis.

The Nomination Committee was established by a resolution of the Board on 1 November 2006.

The Committee comprised of the following:-

Chairman: Lee Kah Kheng – Independent Non-Executive Director

STATEMENT ON INTERNAL CONTROL

Introduction

This statement is made pursuant to Paragraph 15.27(b) of the Bursa Securities Listing Requirements, which requires public listed companies to include a statement in their annual reports on the state of internal control within the Group.

The Malaysian Code on Corporate Governance stipulates that the Board of Directors of listed companies should maintain a sound system of internal controls to safeguard shareholders' investments and the Group' assets.

This Statement of Internal Control has been prepared in accordance with the "Statement on Internal Control: Guidance for Directors of Public Listed Companies" (the "Guidance") issued by the Task Force on Internal Control.

Responsibility

The Board recognizes the importance of maintaining a sound system of internal control covering controls relating to risk management, financial, operational and compliance to achieve the following objectives:

a) Safeguard the shareholders' interest and assets of the Group
b) Identify and manage risks affecting the Group
c) Ensure compliance with regulatory requirements
d) Ensure the effectiveness and efficiency of operations to achieve objectives of the Group
e) Ensure the integrity and reliability of financial information

The system of internal control is designed to cater for the Group's needs and manage the risks to which the Group exposed. It should be noted that such system is designed to manage rather than eliminate the risk of failure to achieve objective and can only provide reasonable but not absolute assurance against material misstatements or losses.

The Board is satisfied that there is an ongoing process for identifying, evaluating and managing the significant risks affecting the Group through the system of internal control.

System of Internal Control

The Groups' system of internal control is comprised of the following key elements:

a) Organisation structure of each business unit clearly defines operational and financial responsibilities
b) Key responsibilities are properly segregated
c) Authority level is properly defined
d) Executive Directors meet regularly to address key business risks and operational issues
e) Operational procedures are governed by standard operating manuals which are reviewed and updated regularly
f) Effective financial reporting system is in place to ensure timely generation of financial information for management's review

The Board confirms that the above is in place throughout the financial year under review and up to the date of approval of this annual report and financial statements. The Board is of the opinion that the existing system of internal control accords with the "Guidance" and that it is adequate to achieve the Group's objectives stated above.

Conclusion

The Board remains committed towards operating a sound system of internal control and therefore recognize that the system must continuously evolve to support the Group's businesses and the size of the Group's operations. As such, the Board, in striving for continuous improvement will put in place an appropriate actions and plans, when necessary, to further enhance the Group's system of internal control.

This statement was made in accordance with a resolution of the Board dated 17 May 2007.

DIRECTORS' REPORT

The directors of **DUFU TECHNOLOGY CORP. BERHAD** have pleasure in submitting their report and the audited financial statements of the Group and of the Company for the financial year ended December 31, 2006.

PRINCIPAL ACTIVITIES

The Company is principally involved in investment holding and providing management services. The principal activities of the subsidiary companies are as stated in Note 12 to the financial statements. There have been no significant changes in the nature of the activities of the Group and of the Company during the financial year.

RESULTS OF OPERATIONS

	The Group RM	The Company RM
Profit/ (loss) for the year	7,861,756	(19,021)

In the opinion of the directors, the results of operations of the Group and of the Company during the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature.

DIVIDENDS

No dividend has been paid or declared by the Company since the end of the previous financial year. The directors also do not recommend any dividend payment in respect of the current financial year.

RESERVES AND PROVISIONS

There were no material transfers to or from reserves or provisions during the financial year other than those disclosed in the financial statements.

ISSUE OF SHARES AND DEBENTURES

During the financial year, the issued and paid-up ordinary share capital of the Company be sub-divided from two (2) ordinary shares of RM1 each into four (4) ordinary shares of RM0.50 each on the basis of two (2) new ordinary shares of RM0.50 each for every one (1) existing ordinary share of RM1 each held.

The issued and paid-up ordinary share capital of the Company was increased from RM2 divided into 4 ordinary shares of RM0.50 each to RM32,900,000 divided into 65,800,000 ordinary shares of RM0.50 each by way of:

a) issue of 58,220,000 new ordinary shares of RM0.50 each at par pursuant to the acquisition of Dufu Industries Sdn. Bhd.; and

b) issue of 7,579,996 new ordinary shares of RM0.50 each at par pursuant to the acquisition of I.P.G. Metal Industry (M) Sdn. Bhd..

The new ordinary shares rank pari passu with the then existing ordinary shares of the Company.

The Company has not issued any debentures during the financial year.

OTHER FINANCIAL INFORMATION

Before the income statements and balance sheets of the Group and of the Company were made out, the directors took reasonable steps:

(a) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts, and have satisfied themselves that all known bad debts had been written off and that no allowance for doubtful debts is required; and

(b) to ensure that any current assets which were unlikely to realise their book values in the ordinary course of business have been written down to their estimated realisable values.

At the date of this report, the directors are not aware of any circumstances:

(a) which would render the amount written off for bad debts inadequate to any substantial extent or require the setting up of allowance for doubtful debts in the financial statements of the Group and of the Company; or

(b) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; or

(c) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate; or

(d) not otherwise dealt with in this report or financial statements which would render any amount stated in the financial statements of the Group and of the Company misleading.

At the date of this report, there does not exist:

(a) any charge on the assets of the Group and of the Company which has arisen since the end of the financial year and secures the liability of any other person; or

(b) any contingent liability of the Group and of the Company which has arisen since the end of the financial year.

No contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the directors, will or may substantially affect the ability of the Group and of the Company to meet their obligations as and when they fall due.

In the opinion of the directors, no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of operations of the Group and of the Company for the succeeding financial year.

REPORT OF THE AUDITORS TO THE MEMBER OF DUFU TECHNOLOGY CORP. BERHAD (Incorporated in Malaysia)

We have audited the accompanying balance sheets as of December 31, 2006 and the related statements of income, changes in equity and cash flows for the year then ended. These financial statements are the responsibility of the Company's directors. It is our responsibility to form an independent opinion, based on our audit, on these financial statements and to report our opinion to you, as a body, in accordance with Section 174 of the Companies Act, 1965 and for no other purpose. We do not assume responsibility towards any other person for the content of this report.

We conducted our audit in accordance with approved standards on auditing in Malaysia. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the directors, as well as evaluating the overall financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion:

(a) the financial statements are properly drawn up in accordance with the provisions of the Companies Act, 1965 and the applicable MASB approved accounting standards in Malaysia so as to give a true and fair view of:

  (i) the state of affairs of the Group and of the Company as of December 31, 2006 and of their results and cash flows for the year ended on that date; and

  (ii) the matters required by Section 169 of the Act to be dealt with in the financial statements and consolidated financial statements; and

(b) the accounting and other records and the registers required by the Act to be kept by the Company and by the subsidiary companies of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.

We have considered the financial statements and the auditors' report of the subsidiary company, Dufu Industries Services Pte. Ltd., of which we have not acted as auditors, being financial statements that have been included in the consolidated financial statements.

(FORWARD)

REPORT OF THE AUDITORS TO THE MEMBER OF DUFU TECHNOLOGY CORP. BERHAD (Incorporated in Malaysia)

We are satisfied that the financial statements of the subsidiary companies that have been consolidated with the financial statements of the Company are in form and content appropriate and proper for the purposes of the preparation of the consolidated financial statements, and we have received satisfactory information and explanations as required by us for these purposes.

The auditors' reports on the financial statements of the subsidiary companies were not subject to any qualification and did not include any comment made under Sub-section (3) of Section 174 of the Act.

NOTES TO THE FINANCIAL STATEMENTS

31 DECEMBER 2006

1. INTRODUCTION

On March 13, 2006, the Company entered into conditional share sale agreement with the shareholders of Dufu Industries Sdn. Bhd. and I.P.G. Metal Industry (M) Sdn. Bhd. for the acquisition of the entire share capital of Dufu Industries Sdn. Bhd. and I.P.G. Metal Industry (M) Sdn. Bhd.. Upon the completion of the acquisitions, the Company became the legal parent company of Dufu Industries Sdn. Bhd.. Due to the relative values of the Companies, the former Dufu Industries Sdn. Bhd.'s shareholders became the majority shareholders through the issue of 58,220,000 new ordinary shares of RM0.50 each in the Company, controlling about 100% of the share capital of the Company at this time. Further, the Company's continuing operations and executive management are those of Dufu Industries Sdn. Bhd.. Accordingly, the substance of the business combination is that Dufu Industries Sdn. Bhd. acquired the Company in a reverse acquisition.

On August 30, 2006, the reverse acquisition of the Company by Dufu Industries Sdn. Bhd. was completed. Due to application of the Financial Reporting Standard 3, Business Combination (FRS 3) rules relating to reverse acquisition, Dufu Industries Sdn. Bhd. became the acquirer of the Group for accounting purposes. Therefore the comparative financial figures set out Dufu Industries Sdn. Bhd.'s numbers as the Group's comparative numbers for 2005.

2. GENERAL INFORMATION

The Company is principally involved in investment holding and the provision of management services. The principal activities of the subsidiary companies are as stated in Note 12. There have been no significant changes in the nature of the activities of the Group and of the Company during the financial year.

The Company is a public limited liability company, incorporated and domiciled in Malaysia.

The Company's registered office and principal place of business are at 57-2, Persiaran Bayan Indah, Bayan Bay, Sungai Nibong, 11900 Penang, Malaysia and 19, Hilir Sungai Keluang 2, Taman Perindustrian Bayan Lepas, Fasa IV, 11900 Bayan Lepas, Penang, Malaysia respectively.

The financial statements of the Group and of the Company were authorised for issue by the Board of Directors in accordance with a resolution of the directors on April 4, 2007.

3. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements of the Group and of the Company have been prepared in accordance with the provisions of the Companies Act, 1965 and the applicable Malaysian Accounting Standards Board ("MASB") approved accounting standards in Malaysia.

4. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Group expressed in Ringgit Malaysia ("RM") have been prepared under the historical cost convention unless stated otherwise in the accounting policies mentioned below.

During the financial year, the Group has adopted all the new and revised Financial Reporting Standards ("FRSs") and Issues Committee ("IC") Interpretations issued by MASB that are relevant to its operations and effective for accounting periods beginning on January 1, 2006.

The adoption of these new and revised FRSs and IC Interpretations has no material effect on the financial statements of the Group other than for the adoption of FRS 3 as explained under Note 1.

Standards and IC Interpretations that are not yet effective and have not been early adopted are as follows:

(a) FRS 117 Leases (Effective for annual periods beginning on or after October 1, 2006). This standard requires the classification of leasehold land as prepaid lease payments. The Group will apply this standard from financial periods beginning on January 1, 2007.

(b) FRS 124 Related Party Disclosures (Effective for annual periods beginning on or after October 1, 2006). This standard will affect the identification of related parties and some other related party disclosures. The Group will apply this standard from financial periods beginning January 1, 2007.

(c) FRS 139 Financial Instruments: Recognition and Measurement (Effective date yet to be determined by MASB). This new standard establishes principles for recognising and measuring financial assets, financial liabilities and some contracts to buy and sell non-financial items. Hedge accounting is permitted only under strict circumstances. The Group will apply this standard when effective.

(d) Amendments to FRS 121 The Effects of Changes in Foreign Exchange Rates - Net investments in a Foreign Operation (Effective for annual periods beginning on or after July 1, 2007). The amendment requires that when a monetary item is denominated in a currency other than the functional currency of either the reporting entity or the foreign operation, an exchange difference arises in the reporting entity's separate financial statements and in the foreign operation's individual financial statements and such exchange difference shall be recognised in profit or loss in the period in which they arise. The Group will apply this standard from financial periods beginning January 1, 2008.

(e) IC Interpretation 1 Changes in Existing Decommissioning, Restoration and Similar Liabilities (Effective for annual periods beginning on or after July 1, 2007). This Interpretation addresses how the effect of the changes in the measurement of an existing decommissioning, restoration and similar liability that result from changes in the estimated timing or amount of the outflow of resources embodying economic benefits required to settle the obligation, or a change in the discount rate, shall be accounted for.

The impact of the adoption of FRS 117, FRS 124 and FRS 139 on the effective date, on the financial statements of the Group and of the Company is not disclosed by virtue of the exemption given by these FRSs. IC Interpretation 1 and amendments to FRS 121 are expected to have no significant impact on the financial statements of the Group and of the Company upon their initial application.

Standards and IC Interpretations that are not yet effective and not relevant to the Group's operations are as follows:

(a) FRS 6 Exploration for and Evaluation of Mineral Resources (Effective for annual periods beginning on or after January 1, 2007).

(b) Amendment to FRS 119_{2004} Employee Benefits - Actuarial Gains and Losses, Group Plans and Disclosures (Effective for annual periods beginning on or after January 1, 2007).

(c) IC Interpretation 2 Members' Shares in Co-operative Entities and Similar Instruments (Effective for annual periods beginning on or after July 1, 2007).

(d) IC Interpretation 5 Rights to Interests arising from Decommissioning, Restoration and Environmental Rehabilitation Funds (Effective for annual periods beginning on or after July 1, 2007).

(e) IC Interpretation 6 Liabilities arising from Participating in a Specific Market - Waste Electrical and Electronic Equipment (Effective for annual periods beginning on or after July 1, 2007).

(f) IC Interpretation 7 Applying the Restatement Approach under FRS 129_{2004} Financial Reporting in Hyperinflationary Economies (Effective for annual periods beginning on or after July 1, 2007).

(g) IC Interpretation 8 Scope of FRS 2 (Effective for annual periods beginning on or after July 1, 2007).

Business combination and basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiary companies). Control is achieved where the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The result of subsidiary companies acquired or disposed of during the year are included in the consolidated income statements from the effective date of acquisition or up to the effective date of disposal, as appropriate.

When necessary, adjustments are made to the financial statements of subsidiary companies to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances and resulting unrealised gains are eliminated on consolidation. Unrealised losses are eliminated on consolidation unless costs cannot be recovered.

Acquisition of subsidiary companies are accounted for using the purchase method. The cost of the business combination is measured as the aggregate of the fair values (at the date of exchange) of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree, plus any costs directly attributable to the business combination. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under FRS 3 Business Combinations are recognised at their fair values at the acquisition date, except for non-current assets (or disposal groups) that are classified as held for sale in accordance with FRS 5 Non-current Assets Held for Sale and Discontinued Operations, which are recognised and measured at fair value less costs to sell.

Goodwill arising on acquisition is recognised as an asset and initially measured at cost, being the excess of the cost of the business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised. If, after reassessment, the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities exceeds the cost of the business combination, the excess is recognised immediately in profit or loss as negative goodwill recognised.

Revenue and revenue recognition

Revenue of the Group represents gross invoiced values of sales less return and discounts.

Revenue from the sale of goods shall be recognised when all the following conditions have been satisfied:

(i) the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
(ii) the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
(iii) the amount of revenue can be measured reliably;
(iv) it is probable that the economic benefits associated with the transaction will flow to the Group; and
(v) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Rental income is accrued on a time basis, by reference to the agreements entered.

Interest income is recognised on a time proportion basis that takes into account the principal outstanding and the effective rate over the period to maturity, when it is determined that such income will accrued to the Group.

Other operating income are recognised on an accrual basis.

Income tax

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the income statements because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is accounted for in respect of temporary differences arising from differences between the carrying amounts of assets and liabilities in the financial statements and their corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that all future taxable profit will be available against which the deferred tax assets can be utilised. Deferred tax assets and liabilities are not recognised on temporary differences arising from goodwill or negative goodwill or from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither the accounting profit nor taxable profit.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in the income statements, except when it arises from a transaction which is recognised directly in equity, in which case the deferred tax is also recognised directly in equity, or when it arises from a business combination that is an acquisition, in which case the deferred tax is included in the resulting goodwill or negative goodwill.

Foreign currency conversion

The individual financial statements of each group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each entity are expressed in Ringgit Malaysia, which is the functional currency of the Company, and the presentation currency of the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rate prevailing on the balance sheet date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, are included in profit or loss for the period. For non-monetary items that are measured in terms of historical cost in foreign currency, any exchange component of that gain or loss is recognised directly in equity.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including comparatives) are expressed in Ringgit Malaysia using exchange rates prevailing on the balance sheet date. Income and expense items (including comparatives) are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during the period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are classified as equity and transferred to the Group's translation reserve. Such translation differences are recognised in profit or loss in the period in which the foreign operation is disposed of.

Employee benefit costs

i. Short-term benefits

Wages, salaries, bonuses and social security contributions are recognised as expenses in the year in which the associated services are rendered by employees of the Group. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by the employees that increase their entitlement to future compensated absences, and short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

ii. Defined contribution plans

As required by law, companies in Malaysia and Singapore make contributions to the state pension scheme, the employees' provident fund and central provident fund respectively. Such contributions are recognised as expenses in the income statements as incurred.

Borrowing costs

All interest and other costs incurred in connection with borrowings are expensed as incurred.

Property, plant and equipment

Property, plant and equipment are stated at cost or valuation less accumulated depreciation. Depreciation of property, plant and equipment except for construction in progress and assets under installation which are not depreciated, is computed on the straight-line method in order to write-off the cost of each asset to its residual value over its estimated useful life.

The annual depreciation rates are as follows:

Short leasehold land	1.75%
Buildings	6.67%
Plant and machinery	10%
Computers	12% & 33.33%
Tools and implements	10% & 20%
Electrical installation	10%
Air conditioners	12%
Office equipment	12% & 20%
Furniture and fittings	8% - 20%
Renovation	10%
Motor vehicles	10% - 20%

As of December 31, 2006, the unexpired lease period of the Group short leasehold land is 45 years.

The Group carried certain of its land and buildings at revalued amounts and placed reliance on the transitional provisions of International Accounting Standards 16 (Revised) as adopted by Malaysian Accounting Standards Board which provides exemption from the need to make regular revaluations for such assets. Effective from September 23, 1997, no further revaluations were carried out. The aggregate carrying amount of such assets as of December 31, 2006 amounted to RM5,289,544 and this amount will be depreciated over the remaining useful lives of the relevant assets.

An increase in the carrying amount arising from revaluation of property, plant and equipment is credited to the revaluation reserve account as revaluation surplus. Any deficit arising from revaluation is charged against the revaluation reserve account to the extent of a previous surplus held in the revaluation reserve account for the same asset. In all other cases, a decrease in the carrying amount is charged to income statements. An increase in revaluation directly related to a previous decrease in carrying amount for that same asset that was recognised as an expense, is credited to income statements to the extent that it offsets the previously recorded decrease.

Gain or loss arising from the disposal of an asset is determined as the difference between the estimated net disposal proceeds and the carrying amount of the asset, and is recognised in the income statements. On disposal of revalued assets or crystallisation of deferred tax liabilities on revalued assets, the amounts in revaluation reserve account relating to such assets are transferred to retained earnings account.

The carrying amounts of property, plant and equipment are reviewed at each balance sheet date to determine whether there is any indication of impairment. An impairment loss is recognised whenever the carrying amount of an item of property, plant and equipment exceeds its recoverable amount. The impairment loss is charged to the income statements unless it reverses a previous revaluation in which case it is treated as a revaluation decrease.

Goodwill

Goodwill arising on the acquisition of a subsidiary company represents the excess of the cost of acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the subsidiary company recognised at the date of acquisition. Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less any accumulated impairment losses.

Negative goodwill on consolidation is recognised in the income statements at the date of acquisition.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

On disposal of a subsidiary company, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

Investments in subsidiary companies

Subsidiary companies are those companies in which the Group has power to exercise control over their financial and operating policies so as to obtain benefits from their activities.

Investments in subsidiary companies, which are eliminated on consolidation, are stated in the Company's financial statements at cost.

When there is an indication of impairment in the value of the investment, the carrying amount of the investment is assessed and written down immediately to its recoverable amount.

Other investments

Other investments in golf club memberships are stated at cost. Allowance for diminution in value is made only when the directors consider that there is a permanent diminution in the value of the investments.

Inventories

Inventories are valued at the lower of cost and net realisable value. Net realisable value represents the estimated selling price in the ordinary course of business less selling and distribution costs and all other estimated costs to completion. Cost is determined on the weighted average method.

Cost of raw materials, tools and instruments consists of the purchase price plus the cost of bringing the inventories to their present location and condition. The cost of work-in-progress and finished goods consists of cost of raw materials, direct labour and an appropriate proportion of manufacturing overheads.

Receivables

Receivables are stated at nominal value as reduced by the appropriate allowances for estimated irrecoverable amounts. Allowance for doubtful debts is made based on estimates of possible losses which may arise from non-collection of certain receivables accounts.

Borrowings

All borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest bearing borrowings are subsequently measured at amortised cost using the effective interest method.

Payables

Payables are stated at the fair value of the consideration to be paid in the future for goods and services received.

Leased assets

Assets under leases which in substance transfer the risks and benefits of ownership of the assets are capitalised under property, plant and equipment. The assets and the corresponding lease obligations are recorded at the fair value of the leased assets which approximates the present value of the minimum lease payments, at the beginning of the respective lease terms.

Finance costs, which represent the difference between the total leasing commitments and the fair value of the assets acquired, are charged to the income statements over the term of the relevant lease period so as to give a constant periodic rate of charge on the remaining balance of the obligations for each accounting period. All other leases which do not meet such criteria are classified as operating leases and the related rentals are charged to the income statements as incurred.

Equity instruments

Ordinary shares are classified as equity. Dividends on ordinary shares are recognised in equity in the period in which they are declared.

The transaction costs of an equity transaction are accounted for as a deduction from equity, net of tax. Equity transaction costs comprise only those incremental external costs directly attributable to the equity transaction which would otherwise have been avoided.

Cash and cash equivalents

Cash and cash equivalents consist of cash and bank balances, bank overdrafts and highly liquid investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Financial instruments

Financial instruments carried on the balance sheets include cash and bank balances, investments, receivables, payables and borrowings. The particular recognition methods adopted are disclosed in the individual accounting policy statements associated with each item.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. Interests, dividends, gains and losses relating to a financial instrument classified as liability are reported as expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity. Financial instruments are offset when the Group has a legally enforceable right to set off the recognised amounts and intend either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Contingent liabilities

A contingent liability is disclosed, unless the possibility of an outflow of resources embodying economic benefits is remote except for cases where the amount involved is material, and the directors are of the opinion that disclosure is appropriate.

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 4, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

There are no key assumptions concerning the future, and other sources of estimation uncertainty at the balance sheet date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

The Group is operating in the jurisdictions of Malaysia and Singapore. The applicable domestic statutory income tax rates are 20% and 28% for Malaysia and 20% for Singapore.

The current corporate income tax rate for the year ended December 31, 2006 for Malaysia is 28%. Small and medium scale companies with paid-up capital of RM2.5 million and below are subject to income tax at the rate of 20% on chargeable income of up to RM500,000. For chargeable income in excess of RM500,000, the corporate income tax rate is at 28%. In September 2006, the Malaysian government announced in the yearly budget a reduction in the corporate income tax rate to 27% for the year of assessment 2007 and 26% for the year of assessment 2008.

The numerical reconciliations between the income tax expense and the product of accounting profit/ (loss) multiplied by the applicable tax rates are as follows:

	The Group		The Company	
	2006	**2005**	**2006**	**2005**

Income tax expense	871,945	332,506	-	-

The applicable tax rate of 28% used in the above numerical reconciliations of tax of the Group is determined based on the statutory income tax rate prevailing for the Company for the year ended December 31,2006 and the statutory income tax rate prevailing for Dufu Industries Sdn. Bhd. for the year ended December 31, 2005.

As of December 31, 2006, the approximate amount of unabsorbed capital allowances and unutilised reinvestment allowances which are subject to agreement by the tax authorities are as follows:

	The Group	
	2006	**2005**
	RM	**RM**
Unabsorbed capital allowances	794,000	590,000
Unutilised reinvestment allowances	-	2,532,000

9. EARNINGS PER SHARE

Earnings per share is calculated by dividing profit for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares in issue during the financial year.

	The Group 2006	2005
Profit attributable to ordinary equity holders of the Company (RM)	7,861,756	4,657,176
Weighted average number of ordinary shares in issue (units)	60,746,666	58,220,000
Basic earnings per share (sen)	12.94	8.00

The earnings per share for the comparative period before the acquisition date is calculated by dividing the profit of Dufu Industries Sdn. Bhd. by the number of ordinary shares issued by the Company to the owners of the legal subsidiary, Dufu Industries Sdn. Bhd. in the reverse acquisition.

Indirect holdings				
Dufu Industries Services Pte. Ltd.*#	Singapore	Processing and trading of high quality computer disk-drive related components.	100%	-

* This company is wholly owned by Dufu Industries Sdn. Bhd.

\# The financial statements of this subsidiary company were audited by auditors other than the auditors of the Company.

On March 13, 2006, the Company entered into conditional share sale agreement with the shareholders of Dufu Industries Sdn. Bhd. and I.P.G. Metal Industry (M) Sdn. Bhd..

The Company acquired 100% of the issued and fully paid-up capital of Dufu Industries Sdn. Bhd. and I.P.G. Metal Industry (M) Sdn. Bhd. for a purchase consideration of RM29,110,000 and RM3,789,998 respectively satisfied by the issuance of 58,220,000 and 7,579,996 new ordinary shares of RM0.50 each in the Company at par respectively. The purchase considerations for the acquisitions were determined based on Dufu Industries Sdn. Bhd. and I.P.G. Metal Industry (M) Sdn. Bhd.'s net tangible assets as of December 31, 2005. The acquisitions were completed on August 30, 2006.

Upon the completion of the acquisition of Dufu Industries Sdn. Bhd., the Company became the legal parent company of Dufu Industries Sdn. Bhd.. Due to the relative values of the Companies, the former Dufu Industries Sdn. Bhd.'s shareholders became the majority shareholders through the issue of 58,220,000 new ordinary shares of RM0.50 each in the Company, controlling about 100% of the share capital of the Company at this time. Further, the Company's continuing operations and executive management are those of Dufu Industries Sdn. Bhd.. Accordingly, the substance of the business combination is that Dufu Industries Sdn. Bhd. acquired the Company in a reverse acquisition.

The cost of this business combination was determined in accordance with FRS 3 Business Combination on the basis of the fair value of the Company as of August 30, 2006 and the number of new shares Dufu Industries Sdn. Bhd. would have had to issue to the shareholders of the Company to provide the same percentage ownership interest of the combined entity.

The fair value of the Company amounted to (RM25,252) as of August 30, 2006. As the shareholders of Dufu Industries Sdn. Bhd. got an interest in the combined entity of about 100%, Dufu Industries Sdn. Bhd. would not have to issue any share to the shareholders of the Company. Thus, the cost of business combination is NIL.

The assets and liabilities arising from the reverse acquisition are as follows:

	Unaudited August 30, 2006 RM
Net assets acquired:	
Other assets	459,080
Cash and bank balances	4,704
Trade and other payables	(489,036)

Upon the completion of the acquisition of Dufu Industries Sdn. Bhd., the Company became the legal parent company of Dufu Industries Sdn. Bhd.. Due to the relative values of the Companies, the former Dufu Industries Sdn. Bhd.'s shareholders became the majority shareholders through the issue of 58,220,000 new ordinary shares of RM0.50 each, controlling about 100% of the share capital of the Company at this time. Further, the Company's continuing operations and executive management are those of Dufu Industries Sdn. Bhd.. Accordingly, the substance of the business combination is that Dufu Industries Sdn. Bhd. acquired the Company in a reverse acquisition.

In accordance with FRS 3, the amount recognised as issued equity instruments in the consolidated financial statements are determined by adding to the issued equity of Dufu Industries Sdn. Bhd. immediately before the business combination the cost of the combination. However, the equity structure appearing in the consolidated financial statements (ie. the number and type of equity instruments issued) shall reflect the equity structure of the Company, including the equity instruments issued by the Company to effect the combination.

As approved in an Extraordinary General Meeting held on January 24, 2006, the issued and paid-up ordinary share capital of the Company be sub-divided from two (2) ordinary shares of RM1 each into four (4) ordinary shares of RM0.50 each on the basis of two (2) new ordinary shares of RM0.50 each for every one (1) existing ordinary share of RM1 each held.

The issued and paid-up ordinary share capital of the Company was increased from RM2 divided into 4 ordinary shares of RM0.50 each to RM32,900,000 divided into 65,800,000 ordinary shares of RM0.50 each by way of:

a) issue of 58,220,000 new ordinary shares of RM0.50 each at par pursuant to the acquisition of Dufu Industries Sdn. Bhd.; and

b) issue of 7,579,996 new ordinary shares of RM0.50 each at par pursuant to the acquisition of I.P.G. Metal Industry (M) Sdn. Bhd..

The new ordinary shares issued rank pari passu with the then existing ordinary shares of the Company.

18. OTHER RESERVES

27. FINANCIAL INSTRUMENTS

a. Financial Risk Management Objectives and Policies

The operations of the Group are subject to a variety of financial risks, including foreign currency risk, interest rate risk, market risk, credit risk, liquidity risk and cash flow risk. The Group has formulated a financial risk management framework whose principal objective is to minimise the Group's exposure to risks and/ or costs associated with the financing, investing and operating activities of the Group.

Various risk management policies are made and approved by the Board for observation in the day-to-day operations for the controlling and management of the risks associated with financial instruments.

i. **Foreign currency risk**

The Group has exposure to foreign exchange risk as a result of transactions and receivables and payables in foreign currencies arising from normal operating activities. The Group does not speculate in foreign currencies.

ii. **Interest rate risk**

The Group's exposure to changes in interest rate risk relates primarily to financing through bank borrowings, term loans and hire-purchases.

iii. **Market risk**

The Group has in place policies to manage the Group's exposure to fluctuation in the prices of the key raw materials used in the operations.

iv. **Credit risk**

The Group is exposed to credit risk mainly from trade receivables. The Group extend credit to its customers based upon careful evaluation of the customers' financial conditions and credit histories. The Group also ensures a number of customers so as to limit high credit concentration in a customer or customers from a particular market.

v. **Liquidity risk**

The Group practises prudent liquidity risk management to minimise the mismatch of financial assets and liabilities and to maintain sufficient credit facilities for contingent funding requirement of working capital.

vi. **Cash flow risk**

The Group reviews its cash flow position regularly to manage its exposure to fluctuations in future cash flows associated with its monetary financial instruments.

b. **Credit Risk**

The maximum credit risk associated with recognised financial assets is the carrying amount shown in the balance sheets.

The Group has no significant concentration of credit risks, with exposure spread over a number of counterparties and customers.

c. Fair Values

The carrying amounts and the estimated fair values of the Group's financial instruments as of December 31, 2006 are as follows:

	The Group			
	2006		2005	
	Carrying Amount RM	Fair Value RM	Carrying Amount RM	Fair Value RM
Financial Assets:				
Investment in club memberships	61,000	61,000	61,000	61,000
Financial Liabilities:				
Long-term loans	11,523,532	11,523,532	6,850,412	6,850,412
Hire-purchase payables	14,952,325	14,952,325	6,700,652	6,700,652

The fair values of investment in club memberships are estimated using current membership entrances fee.

The fair values of long-term loans and hire-purchase payables are estimated using discounted cash flow analysis based on current borrowing rates for similar types of borrowing arrangements.

The fair values of other financial assets and other financial liabilities approximate their carrying amounts because of the short maturity of these instruments.

28. SUBSEQUENT EVENTS
