Financial Performance

The Group managed to achieve RM170.31 million in revenue for the financial year ended 31 December 2016, a 4.5% per cent decrease over the previous financial year ended 31 December 2015 ("FY2015") as the Group continues to face headwinds operating in a challenging industry. Nevertheless, the Group's Profit Before Taxation has in turn improved by 121.11% to RM35.34 million from RM15.98 million in the previous year whilst Net Profit Attributable to Shareholders stood at RM27.11 million for FY2016, which constitutes an increase of 147.8% compared to RM10.94 million for FY2015. This favorable performance was mainly due to the continuing strengthening of United State Dollars ("USD") against the Malaysian Ringgit ("MYR") and the one-off gain arising from the dissolution of subsidiaries, as well as full recovery of RM2.75 million compensation as highlighted in Note 26 of the Group's financial report FY2016.

On the back of this financial year's robust growth in earnings, Shareholders' Equity have improved from RM115.44 million as at 31 December 2015 to RM131.19 million as at 31 December 2016. Net cash flows grew stronger of which RM46.48 million were generated from operating activities in FY2016, representing 171.4% of Net Profit Attributable to Shareholders. This had led to higher net cash position of RM33.57 million as at 31 December 2016 from RM1.25 million as at 31 December 2015.

Dividend

For FY2016, the Board is pleased to recommend a final single-tier dividend of 3.5 sen per share for the approval of our shareholders at the forthcoming Annual General Meeting ("AGM"). If approved, coupled with the first interim single-tier dividend of 1 sen per share paid out on 10 October 2016, the total dividend for this financial year will be 4.5 sen per share which is higher than the total dividend of 3.1 sen per share paid in respect of FY2015.

The dividend payout for FY2016 is consistent with the Company's Dividend Policy whereby at least 50% of the Company's Operating Profit After Tax (PAT) will be paid as dividend to shareholders after taking into consideration of the Company's retained profits, cash flow as well as the funding requirement of the Group.

Corporate Developments

We have bought back a total of 8,651,900 shares amounting to RM5.01 million, at an average cost of 57.9 sen per share. The share price of the Company has since improved following the share buyback exercise where DUFU's share price has risen by more than 80% at the date of this report as compared to the average purchase cost since inception.

During the financial year ended 31 December 2016, the voluntary wound-up exercise has been completed on its 100% owned subsidiaries namely Futron Technology Limited and I.P.G Metal Industry (M) Sdn Bhd.

On 6 October 2016, the Company announced to undertake the following corporate exercises ("Proposals"):

- (i) proposed consolidation of every two (2) existing ordinary shares of RM0.50 each in DUFU into one (1) ordinary share of RM1.00 each in DUFU;

However, on 20 March 2017, after taking into consideration the recommendation of our principal adviser, Affin Hwang Investment Bank Berhad, the Board has resolved not to proceed with the Proposals and will evaluate alternative options to achieve the Company's objectives previously envisaged under the Proposals.

MANAGEMENT DISCUSSION AND ANALYSIS

Overview of Performance

a) Revenue

For the Financial Year Ended 31 December 2016 ("FY2016"), Dufu Group's revenue was down by 4.47% or RM7.96 million from RM178.27 million registered in the Financial Year Ended 31 December 2015 ("FY2015") to RM170.31 million for the current year.

Nevertheless, our revenue in 2016 was broadly in line with our early expectation, with our earlier anticipation of the slowing demand in the Hard Disk Drive ("HDD") market. The main reason behind this decline in the HDD demand is due to the sluggish PC market coupled with the substitution of Solid-State Storage ("SSD") device that uses integrated circuit assemblies as memory to store data.

b) Profit Before Taxation ("PBT")

FY2016 marked a major milestone for the Group as we record our highest PBT since being listed on Bursa Malaysia Securities Berhad. The Group's PBT improved from RM15.98 million in FY2015 to RM35.34 million in FY2016, an increase of RM19.36 million or 121.11%. The principal contributing factors that led to the increase in the PBT were as follows:

- The continued strengthening of the United States Dollar ("USD") against the Ringgit Malaysia ("MYR") has moved favorably for the Group as the bulk of the Group's income is dominated in USD whereas raw materials and other cost components are locally sourced.
- Years of efforts to continuously improve on our operational efficiency in our cost containment and cost savings initiative, forms part of the Internal Management's Key Performance Index ("KPI") which primarily focuses on quality and sustainability, have resulted in the Group's solid earnings growth and performance in FY2016.
- One-off gains were recorded in FY2016 such as RM3.71 million realized from the dissolution of subsidiaries, as well as full recovery of RM2.75 million compensation as highlighted in Note 26 of the Group's financial report FY2016.

c) Other income

Other income increased from RM5.56 million in FY 2015 to RM11.86 million in FY 2016 mainly due to the one-off gains in FY2016 as outlined above.

d) Financial Cost

The Group incurred finance cost of RM0.88 million for FY2016 which was RM0.79 million lower compared to RM1.68 million in FY2015. The finance charges primarily meant for term loans and hire purchase obligations declined as the Group continued to pay down these financial obligations and borrowings as the Group ends the year on a stronger net cash position.

e) Other operating expenses

The Group's other expenses have reduced from RM38.16 million in FY2015 to RM24.82 million in FY2016. The decrease was mainly due to impairment loss on loans and receivables of RM2.87 million, inventories written down of RM2.51 million and property, plant and equipment written off amounting to RM1.72 million which was recognized in FY2015.

f) Profit After Taxation ("PAT")

The Group's PAT for FY2016 was RM27.11 million, an increase of RM16.17 million against FY2015 of RM10.94 million. The increase in PAT was attributed to the reasons outlined above, the reduction of the Malaysian statutory income tax, as well as lower effective tax rates due to some non-tax deductible expenses incurred in FY2015.

MANAGEMENT DISCUSSION AND ANALYSIS (CONT'D)

Capital Expenditure, Capital Structure and Capital Resources

We manage prudent capital spending to support our business growth plans and upgrading of existing machines. Capital expenditures to support capacity expansion, innovation and cost efficiencies, were RM3.18 million in FY2016 much lower than RM5.74 million incurred in FY2015. The addition of capital outlay in the FY2016 was mainly due to the purchase of CNC Auto Lathe Machines to cater for the growth in the volume of our anticipated sales.

In order to ensure Dufu Group does not fall into a mis-match of funding, the Group usually undertakes long term financing to purchase major assets such as buildings and equipment. For example, the main building of the Group is financed by a term loan up to 15 years whereas major plant and machineries are financed using a three to five years hire-purchase arrangements with various financial institutions.

We maintain debt levels we consider appropriate after evaluating a number of factors, including cash flow expectations, cash requirements for ongoing operations, investment and financing plans and the overall cost of capital. The excellent results achieved by the Group in the last two financial years have seen the transformation from the Group's net borrowing position of RM23.01 million in the beginning of FY2015 to a cash surplus position of RM33.57 million as at 31 December 2016. Nevertheless, the Group aims to maintain a prudent financial structure to ensure that it will be able to access adequate capital at favourable terms. We have banking facilities with local, regional and international banks and view each of them as our core business partner to ensure the Group has adequate liquidity to finance its operations and exposure to various financial instruments at competitive rates to finance the Group's operations and investments.

Trends, Outlook, Future Challenges & Strategy

According to the latest projections by the World Bank, world economic growth is projected to pick up to 2.7 percent in 2017 from a sluggish rate of 2.3 percent last year. Advanced-economy growth is expected to recover moderately to 1.8 percent in 2017. In emerging and developing economies, growth is projected to accelerate to 4.2 percent in 2017 from 3.4 percent in 2016.

Dufu Group expects the personal storage products in HDD market continue to be challenging as the competition from Solid State Drive (SSD) intensifies. However, the global NAND flash memory is expected to continue facing supply constraint in the year 2017, which may potentially lift the HDD demand for Enterprise capacity storage. Coupled with recent gain in popularity for Helium-filled drives, Dufu Group expects the demand for its products to remain resilient, as the current HDD are generally packed with more disc media to increase its storage capacity especially for Enterprise capacity storage products.

Dufu Group will continue to improve its operation efficiency with effective resource planning, practicing lean concept for operation wastes control, as well as empower its employees to initiate and execute ideas for better operation cost control. In the HDD segment, the focus on product mix with better value creation has gained favorable response from our customers. Our emphasis on customer alignment strategy in quality, services as well as continuous advancement of process technology are also our key success factors to retain the status of the preferred and leading manufacturer to meet future product design needs.

With vigorous and energetic resources, Dufu Group seeks to strengthen its position and aggressively seeks new business ventures to capture a larger market share and broaden its revenue potential especially in the Non-HDD sectors. This includes plans to secure projects with new customers to diversify the Group's revenue streams. With all the activities and strategies that are in place will provide the foundation for Dufu Group to overcome any anticipated challenges in the coming financial year ending 31 December 2017 and beyond.

The primary responsibility of the appointment of new Directors to the Board has been delegated to the NC. The policies and procedures for recruitment and appointment of Directors are set out in ToR of the NC. The NC is guided by the ToR in carrying out its responsibilities in respect of the nomination, selection and appointment process for Directors of the Company. a) Boardroom diversity

Based on the review of the Board composition in 2016, NC had recommended for the appointment of additional Independent Director in line with the best corporate governance practice and to promote balance of power and authority on the Board (Recommendation 3.5 of the Code). In view of this, the NC has interviewed three (3) candidates of additional directors to the Company. In November 2016, after considering the diverse range of skills, competencies, experience, professionalism and other relevant qualities required to efficiently manage the business, Mr. Yin, Chih-Chu also known as Laurence Yin was appointed as an additional Independent Non-Executive Director of Dufu.

His appointment was made only after careful consideration of other potential candidates whose skills and experience were found to be overlapping with current Directors. The Board concurred with NC viewpoint that Mr. Yin, Chih-Chu also known as Laurence Yin possessed wide industrial knowledge that would further enhanced and diversify the mix of skills of the composition of existing Board members. The Board strongly view that Board diversity is important to facilitate optimal decision-making by harnessing different insights and perspectives.

Notwithstanding the recommendation of the MCCG 2012, the Company does not practice any form of gender, ethnicity and age group biasness as all candidates shall be given fair and equal treatment. The Board believes that there is no detriment to the Company in not adopting a formal gender, ethnicity and age group diversity policy as the Company is committed to provide fair and equal opportunities and nurturing diversity within the Company. In identifying suitable candidates for appointment to the Board, the NC will consider candidates on merit against objective criteria and with due regard for the benefits of diversity on the Board.

STATEMENT ON CORPORATE GOVERNANCE (CONT'D)

3. REINFORCE INDEPENDENCE

3.1 Annual Assessment of Independence

The NC played an important role to assist the Board in assessing the independence of Non-Executive Directors of the Company on annual basis. Based on the assessment conducted by the NC, the Board is generally satisfied with the level of independence demonstrated by all the Independent Directors of the Company and their ability to act in the best interest of the Company.

The NC develops the criteria to assess independence of Independent Director, include but not limited to directors' background, family relationships, interest of shareholdings in the Company and related party transactions with the Group (if any).

3.2 Tenure of Independent Director

Notwithstanding the recommendation of the MCCG 2012, the Board is presently of the view that there is no necessity to fix a maximum tenure limit for Directors as there are significant advantages to be gained from the long-serving Directors who possess tremendous insight and knowledge of the Company's businesses and affairs. Similarly, the Board does not set a time-frame on how long an Independent Director should serve on the Board, mainly for the following reasons:-

- The ability of a Director to serve effectively as an Independent Director is very much dependent on his calibre, qualification, experience and personal qualities, particularly his integrity and objectivity, and has no real connection to his tenure as an Independent Director.
- NC conducts an annual assessment of Independent Directors in respect of *inter alia* their skills, experience and contributions, and whether the Independent Directors are able to discharge their duties with unbiased judgement. Furthermore, the NC also reviews the Directors Profile of Independent Directors and assess its family relationship, interest of shareholdings in the Company and related party transactions with the Group (if any).

3.3 Shareholders' approval to retain an Independent Director who has served for more than 9 years

Currently, all the Independent Directors of the Board members serves less than nine (9) years tenure in the Company.

3.4 Separation of roles of Chairman and Chief Executive Officer ("CEO")

The Company practices a division of responsibilities between the Executive Chairman and the CEO. Their roles are separated and clearly defined to ensure a balance of power and authority, increased accountability and greater capacity of the Board for Independent decision-making. The Chairman is mainly responsible for the Board's effectiveness and conduct. He also promotes an open environment for debate and ensures effective contributions from Non-Executive Directors. The Chairman also exercises control over the quality, quantity and timeliness of information flow between the Board and Management. At a general meeting, the Chairman plays a role in fostering constructive dialogue between shareholders, Board and Management.

Mr. Yeoh Beng Hooi has been appointed as the Acting CEO in August 2015. The Board had assessed the Group performance under the leadership of the Acting CEO. In August 2016, the Board was satisfied with the performance of Mr Yeoh and resolved that Mr. Yeoh be appointed as the CEO of the Group effective 29 August 2016.

The CEO is in charge of the day-to-day operations of the business, implements the Group's policies and decisions as adopted by the Board, overseeing the operations as well as developing, coordinating and implementing business and corporate strategies.

3.5 Composition of the Board

The Board is mindful of the executive role of Chairman held by Mr. Lee, Hui-Ta also known as Li Hui Ta. In line with the continuous aim of Dufu to strive for best corporate governance practice, the NC on 13 October 2016 reviewed the position of Mr. Lee as the Executive Chairman of Dufu and to explore whether a suitable candidate can be identified from the existing directors. Taking into consideration the challenges of finding a qualified and suitable candidate in a short period of time; Mr. Lee's position as the single largest shareholder; the improved financial performance of Dufu Group coupled with the fact that the Group's employees' need for stability after the recent fiasco (as announced), it was agreed that the Committee make the recommendation to the Board for Mr. Lee to continue his position as the Executive Chairman of Dufu Group for the time being. This recommendation was approved by the Board on 4 November 2016. Nevertheless, the NC has taken measure to increase the number of Independent Directors in the Board to promote balance of power and authority on the Board. The NC also believed that such approach would helped in providing guidance, unbiased, fully balanced and independent views, advice and judgement to many aspects of the Group's strategy so as to safeguard the interests of minority shareholders and to ensure that high standards of conduct and integrity are maintained by the Group.

STATEMENT ON CORPORATE GOVERNANCE
(CONT'D)**3. REINFORCE INDEPENDENCE (cont'd)****3.5 Composition of the Board (cont'd)**

Currently, the Chairman of the Company is not an Independent Director. The Board is mindful to the recommendation that the Board must comprise a majority of Independent Directors where the Chairman is not an Independent Director. The NC and the Board is of the view that there are sufficient experienced and independent – minded Directors on the Board to provide sufficient check and balance. Given that there are four experienced Independent Directors representing more than 50% of the Board, the Board collectively would be able to function independently of management.

Mr. Lee has considerable experience in the Group's businesses and provides leadership for the Board in considering and setting the overall strategies and objectives of the Company. The Board is of the view that it is in the interest of the Company to maintain the above arrangement so that the Board could have the benefit of a chairman who is knowledgeable about the businesses of the Group, capable of guiding discussions at Board meetings and who is able to brief the Board in a timely manner on key issues and developments. Mr. Lee is also known to be well equipped to interact with global leaders of the industry and build relationships with stakeholders.

As the Board recognizes the importance of the roles played by Senior Independent Director, the Board will continued assessing and identifying the rightful candidate among the Independent Directors to be appointed to the said position.

Any concern regarding the Group may be conveyed by shareholders, investors or any other stakeholders to the Chairman of Audit Committee at the following address and such concerns will be reviewed and addressed accordingly:-

All pertinent issues discussed at the meetings in arriving at decisions and conclusions are properly recorded in the discharge of the Board's duties and responsibilities.

Prior to the setting up of its in-house Internal Audit Department ("IAD"), the Group outsourced its internal audit function to a professional Internal Audit Firm. The Group had set up its in-house IAD during the financial year 2016 and as such, the in-house IA function would enable to the Group to increase the IA cycle and to widen the scope of IA review as the outsourced IA only performed the review twice a year due to cost constrain. As the IAD is newly established, an independent consulting firm was engaged on retainer basis effective from 1 August 2016 to complement and advise the Internal Audit team to improvise the effectiveness of the internal audit function. The Internal Auditors' principal responsibility is to evaluate and improve the effectiveness of risk management, control and governance process. This is accomplished through a systematic and disciplined approach of regular reviews and appraisals of internal controls in the key activities of the Group's businesses implemented by the Management.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

Introduction

The Malaysian Code on Corporate Governance 2012 requires the Board of Directors ("Board") to establish a sound risk management framework and internal controls system to safeguard shareholders' investments and the assets of the Group. Pursuant to paragraph 15.26 (b) of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad, the Board of listed issuers is required to include in its annual report, a statement on the Group's state of internal control. The Board recognises its responsibilities for and the importance of a sound system of risk management and internal controls. Set out below is the Board's Statement on Risk Management and Internal Control, which provides an overview of the Group's state of risk management and internal control system.

Board Responsibility

The Board recognises the importance of the Group's sound internal controls as well as risk management practices, and affirms its overall responsibility of reviewing the adequacy and effectiveness of the risk management and internal control systems of the Group. The Board has via the Audit Committee ("AC") obtained the necessary assurance on the adequacy and effectiveness of the Group's risk management and internal control systems through ongoing and independent reviews carried out by the internal audit function.

Due to inherent limitations in any system of internal control, such systems can only manage rather than eliminate all possible risks resulting in the Group's inability to achieve its business objectives. Thus, the system can provide reasonable, and not absolute, assurance against material misstatement or loss.

The Board has also delegated the power/ authority to review, deliberate and approve the acquisition or disposal of investments or assets of the Group to be assumed by the Investment Committee ("IVC") where the membership of the IVC is majority held by Independent Non-Executive Directors.

KEY COMPONENTS OF INTERNAL CONTROL PROCESSES

Risk Management Framework

The Board has put in a risk management framework and ongoing process to assess the various types of risks, which might have an impact on the profitable operation of the Group's business. These include strategic risk, operational risk and project risk. The following outlines the Group's risk management objectives:-

- (a) to assess the principle risks faced, or potential risk exposure by the Group in its business operation and to implement appropriate internal control systems that will mitigate those risks;
- (b) to review the adequacy and integrity of the internal controls in compliance to guidelines, laws and regulations, and to response to changes of business environment from time to time;
- (c) to weigh business decisions against the philosophy that business risks would be necessarily incurred if the associated rewards are expected to enhance the Group's shareholder value;
- (d) to ensure risks which may have a significant impact upon the Group are identified in a manner which would result in their expeditious treatment;
- (e) to provide an assurance regarding the extent of the Group's compliance with regulatory requirements and the policies and procedures which are in place.

The Group's Risk Management Committee ("RMC") is responsible to perform a periodic review, assessment and update of the Risk Register during the Key Performance Indicators ("KPIs") meetings. The Group is in the midst of enhancing its Enterprise Risk Management ("ERM") system which is an ongoing and systematic process to identify, assess, respond and monitor risks. The RMC consist of the Chief Executive Officer, Department Heads and the Internal Auditor (Risk Management Co-ordinator). The RMC is required to identify major business and compliance risks concerning their respective business units, oversees and ensures integration of risk management into their business processes to safeguard the interest of the Group covering fifteen (15) areas such as Purchasing, Sales and Marketing, Conversion and Production, Management Information System, Human Resource Management, Cash Management, Finance and Corporate, Inventory Management, Assets Management, Logistics, General Safety and Security, Intellectual Property and the External Environment, Product and Process Development and Facility and as well as the Quality System. The risks are identified and assessed by employing the following methodologies:

Risk Management Framework (cont'd)

- ❖ Identification of risks by the process owners
- ❖ Assessment of the likelihood and impact of the risks identified
- ❖ Evaluating the control strategies in relation to the risks
- ❖ Formulating action plan to address control deficiencies
- ❖ Setting Key Risk Indicators to monitor the risks

Formal database of risks and controls information arising from the quarterly risk assessment exercise shall be captured in the format of risk registers. The identified risks are assessed and rated from low, moderate, high to significant depending upon the severity of consequence and the likelihood of its occurrence and financial impact on the Group's cash flow and profit. The Risk Management Unit ("RMU") of each business unit reports to the RMC and the RMC will then meet to discuss and evaluate the RMUs' reports for adoption. Thereafter, the Risk Management Co-ordinator, and where applicable the owner of the risk profile shall present the Group's Risk Report and updates the AC every quarter on the status of the Group's ERM process, changes in risk profiles and their controls which are in place.

Board Meetings

The Board meets at least quarterly and has a formal agenda on matters for discussion. The Executive Chairman leads the presentation of board papers while the Executive Director, where applicable provides explanation of pertinent issues. Additionally, the Chief Executive Officer or Executive Director, where applicable updates the Board on key business and operational issues such as key products results and growth, business plan, corporate affairs and prospects. In arriving at any decision, on recommendation by the Management, a thorough deliberation and discussion by the Board is a prerequisite.

Organisational Structure

There exists a clearly defined organisational structure with defined lines of job responsibilities and delegation of authority. This will assist in ensuring that effective communication of risk control objectives as well as establishment of authority and accountability is in accordance with Management criteria.

Internal Policies and Procedures

Internal Policies and Procedures have been developed throughout the Group. The policies and procedures are updated timely to incorporate changes to systems, work environment and guidelines. Testament to our efforts in doing so, the Group's Standard Operating Procedures ("SOP") are aligned and adhered to Electronic Industry Citizenship Coalition ("EICC"), EMS (Environmental Management System) 14001, OHSAS 18001 Occupational Health & Safety Management System and ISO 9001 Quality Management System accreditation.

The delegation of limits is subject to periodic reviews as to its implementation and continuing suitability in meeting the Group's business objectives and operational needs.

Performance Management Framework

Management reports are generated on a regular and consistent basis to facilitate the Board, the Company's and the Group's Management to perform financial and operating reviews on the various operating units. The reviews encompass areas such as financial and non-financial KPIs, variances between standard and operating results and compliance with laws and regulations. The KPIs meeting is chaired by the Chief Executive Officer and attended by all the Department Heads and supporting staff, and is held once a month to assess and measure the performance of various business units.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Dufu Technology Corp. Berhad, which comprise the statements of financial position as at 31 December 2016 of the Group and the Company, and the statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and the Company for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 54 to 90.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and the Company as at 31 December 2016, and of their financial performance and cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 1965 in Malaysia.

Information Other than the Financial Statements and Auditors' Report Thereon

The directors of the Company are responsible for the other information. The other information comprises the directors' report (but does not include the financial statements of the Group and the Company and our auditors' report thereon), which we obtained prior to the date of this auditors' report, and the annual report, which is expected to be made available to us after that date.

Our opinion on the financial statements of the Group and the Company does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and the Company, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and the Company or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors of the Company and request that a correction be made. If the directors refuse to make the correction, we shall take appropriate action considering our legal rights and obligations, to seek to have the uncorrected material misstatement appropriately brought to the attention of users for whom our auditors' report is prepared.

Responsibilities of the Directors for the Financial Statements

The directors of the Company are responsible for the preparation of financial statements of the Group and the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 1965 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Group and the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and the Company, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF DUFU TECHNOLOGY CORP. BERHAD (CONT'D)

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the financial statements of the Group and the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and the Company, including the disclosures, and whether the financial statements of the Group and the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and the Company of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2. Significant Accounting Policies (cont'd)

2.1 Basis of Preparation of Financial Statements (cont'd)

MFRS (Issued as at the end of the reporting period)	Effective for annual periods beginning on or after

(ii) Amendments to MFRS 12 <i>Disclosure of Interests in Other Entities</i>	1 January 2017
(iii) Amendments to MFRS 128 <i>Investments in Associates and Joint Ventures</i>	1 January 2018

Management foresees that the initial application of the above MFRSs will not have any significant impacts on the financial statements except as follows:-

MFRS 9 *Financial Instruments*

MFRS 9 *Financial Instruments*, which replaces MFRS 139 *Financial Instruments: Recognition and Measurement*, sets out the requirements for recognising and measuring financial instruments. The major changes introduced by MFRS 9 (that are relevant to the Group and the Company) relate to the classification and measurement of financial assets. Under MFRS 9, financial assets are classified as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both the business model within which they are held and their contractual cash flow characteristics. Management foresees that the adoption of these new classifications will not result in any significant changes in the existing measurement bases of financial assets of the Group and the Company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016 (CONT'D)

2. Significant Accounting Policies (cont'd)

2.2 Basis of Consolidation

A subsidiary is an entity that is controlled by another entity. An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries made up to the end of the reporting period using the acquisition method. Under the acquisition method, the consideration transferred, the identifiable assets acquired and the liabilities assumed are measured at their acquisition-date fair values. The components of non-controlling interests that are present ownership interests are measured at the present ownership instruments' proportionate share in the recognised amounts of the identifiable net assets acquired. All other components of non-controlling interests are measured at their acquisition-date fair values. In a business combination achieved in stages, the previously held equity interest in the acquiree is remeasured at its acquisition-date fair value and any resulting gain or loss is recognised in profit or loss. All acquisition-related costs, other than the costs to issue debt or equity securities, are recognised in profit or loss as incurred.

Goodwill at the acquisition date is measured as the excess of (a) over (b) below:-

- (a) the aggregate of:-
 - (i) the acquisition-date fair value of the consideration transferred;
 - (ii) the amount of any non-controlling interests; and
 - (iii) in a business combination achieved in stages, the acquisition-date fair value of the previously held equity interest in the acquiree.
- (b) the net of the acquisition-date fair values of the identifiable assets acquired and the liabilities assumed.

Goodwill is recognised as an asset at the aforementioned amount less accumulated impairment losses, if any. The impairment policy is disclosed in Note 2.7. When the above (b) exceeds (a), the excess represents a bargain purchase gain and, after reassessment, is recognised in profit or loss.

A subsidiary is consolidated from the acquisition date, being the date on which control is obtained, and continues to be consolidated until the date when control is lost. Intragroup balances, transactions, income and expenses are eliminated in full on consolidation. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. All changes in the parent's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

Upon loss of control of a subsidiary, the assets (including any goodwill) and liabilities of, and any non-controlling interests in the subsidiary are derecognised. All amounts recognised in other comprehensive income in relation to the subsidiary are accounted for on the same basis as would be required if the related assets or liabilities had been directly disposed of. Any consideration received and any investment retained in the former subsidiary are recognised at their fair values. The resulting difference is then recognised as a gain or loss in profit or loss.

2.3 Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. The impairment policy is disclosed in Note 2.7.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016 (CONT'D)

2. Significant Accounting Policies (cont'd)

2.3 Property, Plant and Equipment (cont'd)

Leasehold land is depreciated on a straight-line basis over the lease terms of 38 to 57 years. Other property, plant and equipment are depreciated on a straight-line basis over the estimated useful lives of the assets using the following annual rates:-

Buildings	5% - 6.67%
Plant and machinery	10%
Furniture, fittings and office equipment	8% - 20%
Renovation and electrical installation	10% - 20%
Motor vehicles	10% - 20%

The residual value, useful life and depreciation method of an asset are reviewed at least at the end of each reporting period and any changes in expectations from previous estimates are accounted for prospectively as changes in accounting estimates.

2.4 Investment Properties

Investment property, being a property held to earn rentals and/or for capital appreciation, is stated at cost less accumulated depreciation and accumulated impairment losses, if any. The impairment policy is disclosed in Note 2.7.

Leasehold land is depreciated on a straight-line basis over the lease term of 38 years. Buildings are depreciated on a straight-line basis over their estimated useful lives using an annual rate of 6.67%.

2.5 Investments in Subsidiaries

As required by the Companies Act 1965, the Company prepares separate financial statements in addition to the consolidated financial statements. In the separate financial statements of the Company, investments in subsidiaries are stated at cost less impairment losses, if any. The impairment policy is disclosed in Note 2.7.

2.6 Investments in Club Memberships

Investments in club memberships are stated at cost less impairment losses, if any. The impairment policy is disclosed in Note 2.7.

2.7 Impairment of Non-financial Assets

At the end of each reporting period, the Group and the Company assess whether there is any indication that a non-financial asset, other than inventories and deferred tax assets, may be impaired. If any such indication exists, the recoverable amount of the asset, being the higher of its fair value less costs of disposal and its value in use, is estimated. Irrespective of whether there is any indication of impairment, goodwill is tested for impairment annually. Any excess of the carrying amount of the asset over its recoverable amount represents an impairment loss and is recognised in profit or loss.

An impairment loss on an asset, other than goodwill, is reversed if there has been a change in the estimates used to determine the recoverable amount and it is reversed only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, had no impairment loss been recognised. The reversal is recognised in profit or loss. An impairment loss on goodwill is not reversed.

2.8 Inventories

Inventories of materials and goods are valued at the lower of cost (determined principally on the first-in, first-out basis) and net realisable value. Cost consists of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and costs necessary to make the sale.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016 (CONT'D)

2. Significant Accounting Policies (cont'd)

2.9 Financial Assets

Financial assets of the Group and the Company consist of receivables and cash and cash equivalents.

Recognition and Measurement

A financial asset is recognised in the statement of financial position when, and only when, the Group or the Company becomes a party to the contractual provisions of the financial instrument. A financial asset is initially recognised at fair value plus directly attributable transaction costs. After initial recognition, the financial asset is measured at amortised cost using the effective interest method. Any gain or loss is recognised in profit or loss when the financial asset is derecognised or impaired as well as through the amortisation process.

A financial asset is derecognised when, and only when, the contractual rights to the cash flows from the financial asset have expired or all the risks and rewards of ownership have been substantially transferred.

Impairment

At the end of each reporting period, the Group and the Company assess whether there is any objective evidence that a financial asset or group of financial assets is impaired. If any such evidence exists, the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted using the asset's original effective interest rate. The asset's carrying amount is reduced through the use of an allowance account and the impairment loss is recognised in profit or loss. The gross carrying amount and the associated allowance are written off when there is no realistic prospect of future recovery.

If, in a subsequent period, the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the increased carrying amount does not exceed what the amortised cost would have been had no impairment loss been recognised at the reversal date. The reversal is recognised in profit or loss.

2.10 Financial Liabilities

Financial liabilities of the Group and the Company consist of payables, loans and borrowings and financial guarantee contracts.

Recognition and Measurement

A financial liability is recognised in the statement of financial position when, and only when, the Group or the Company becomes a party to the contractual provisions of the financial instrument. A financial liability is initially recognised at fair value less directly attributable transaction costs. After initial recognition, all financial liabilities, except for financial guarantee contracts, are measured at amortised cost using the effective interest method. Any gain or loss is recognised in profit or loss when the financial liability is derecognised as well as through the amortisation process. After initial recognition at fair value, if any, financial guarantee contracts are measured at the higher of the amount initially recognised less appropriate amortisation and the estimate of any probable obligation.

A financial liability is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires.

2.11 Leases

Finance Lease

A finance lease is a lease that transfers substantially all the risks and rewards incidental to ownership of an asset to the lessee.

A finance lease, including hire purchase, is initially recognised as an asset and liability at the fair value of the leased asset or, if lower, the present value of the minimum lease payments. The minimum lease payments are subsequently apportioned between the finance charge and the reduction of the outstanding liability so as to produce a constant periodic rate of interest on the remaining balance of the liability. The depreciation policy for depreciable leased assets is consistent with that for equivalent owned assets.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016 (CONT'D)

2. Significant Accounting Policies (cont'd)

2.11 Leases (cont'd)

Operating Lease

An operating lease is a lease other than a finance lease.

Lease payments under an operating lease are recognised in profit or loss on a straight-line basis over the lease term.

2.12 Foreign Currency Transactions and Translation

The consolidated financial statements and separate financial statements of the Company are presented in Ringgit Malaysia, which is also the Company's functional currency, being the currency of the primary economic environment in which the entity operates. Items included in the financial statements of each individual entity within the Group are measured using the individual entity's own functional currency.

A foreign currency transaction is recorded in the functional currency using the exchange rate at transaction date. At the end of the reporting period, foreign currency monetary items are translated into the functional currency using the closing rate. Foreign currency non-monetary items measured at cost are translated using the exchange rate at transaction date whereas those measured at fair value are translated using the exchange rate at valuation date. Exchange differences arising from the settlement or translation of monetary items are recognised in profit or loss. Any exchange component of the gain or loss on a non-monetary item is recognised on the same basis as that of the gain or loss, i.e. in profit or loss or in other comprehensive income.

In translating the financial position and results of a foreign operation whose functional currency is not the presentation currency, i.e. Ringgit Malaysia, assets and liabilities are translated into the presentation currency using the closing rate whereas income and expenses are translated using the exchange rates at transaction dates. All resulting exchange differences are recognised in other comprehensive income and accumulated in equity as currency translation reserve until the foreign operation is disposed of, at which time the cumulative exchange differences previously recognised in other comprehensive income are reclassified from equity to profit or loss as a reclassification adjustment.

Any goodwill and fair value adjustments arising from the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation to be expressed in its functional currency and translated into the presentation currency using the closing rate.

2.13 Share Capital

Ordinary shares are classified as equity. Transaction costs that relate to the issue of new shares are accounted for as a deduction from equity.

Own shares purchased are held as treasury shares in accordance with the requirements of Section 67A of the Companies Act 1965. The total amount of consideration paid, including directly attributable costs, is recognised directly in equity.

Dividends on shares declared and unpaid at the end of the reporting period are recognised as a liability whereas dividends proposed or declared after the reporting period are disclosed in the notes to the financial statements.

2.14 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Group and the Company use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. The valuation techniques used include the following:-

- (i) Market approach - which uses prices and other relevant information generated by market transactions involving identical or comparable (i.e. similar) assets, liabilities or a group of assets and liabilities.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016 (CONT'D)

2. Significant Accounting Policies (cont'd)

2.14 Fair Value Measurement (cont'd)

- (ii) Cost approach - which reflects the amount that would be required currently to replace the service capacity of an asset.
- (iii) Income approach - which converts future amounts (e.g. cash flows or income and expenses) to a single current (i.e. discounted) amount.

The inputs to valuation techniques used to measure fair value are categorised into the following levels of fair value hierarchy:-

- (i) Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (iii) Level 3 - unobservable inputs for the asset or liability.

Any transfers between the levels of fair value hierarchy are deemed to have occurred at the end of the reporting period.

Non-financial Assets

The fair values of land and buildings are measured using the market comparison approach. Under this approach, the fair values are derived from observable market data such as prices per square foot for comparable properties in similar locations (i.e. Level 2).

Financial Assets and Financial Liabilities

The carrying amounts of receivables, cash and cash equivalents, payables and loans and borrowings which are short-term in nature or repayable on demand are reasonable approximations of fair values. The fair values of long-term loans and borrowings are measured using present value technique by discounting the expected future cash flows using observable current market interest rates for similar liabilities (i.e. Level 2).

2.15 Income Recognition

Income from the sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer.

Dividend income is recognised when the shareholder's right to receive payment is established.

Interest income is recognised using the effective interest method.

2.16 Employee Benefits

Short-term Employee Benefits

Short-term employee benefits such as wages, salaries, bonuses and social security contributions are recognised in profit or loss in the period in which the associated services are rendered by the employee.

Defined Contribution Plans

As required by law, employers in Malaysia make contributions to the statutory pension scheme, Employees Provident Fund ("EPF"). The Group's foreign subsidiaries make contributions to their respective countries' statutory pension schemes. Contributions to defined contribution plans are recognised in profit or loss in the period in which the associated services are rendered by the employee.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016 (CONT'D)

2. Significant Accounting Policies (cont'd)

2.17 Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset, which is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale, are capitalised as part of the cost of the asset, until such time as the asset is substantially ready for its intended use or sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.18 Income Taxes

Income taxes for the year comprise current tax and deferred tax.

Current tax represents the expected amount of income taxes payable in respect of the taxable profit for the year and is measured using the tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is provided for under the liability method in respect of all temporary differences between the carrying amount of an asset or liability and its tax base except for those temporary differences associated with goodwill or the initial recognition of an asset or liability in a transaction which is not a business combination and affects neither accounting nor taxable results at the time of the transaction.

A deferred tax liability is recognised for all taxable temporary differences whereas a deferred tax asset is recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.19 Cash and Cash Equivalents

Cash and cash equivalents comprise cash on hand, demand deposits, term deposits that are withdrawable on demand and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the purpose of statement of cash flows, cash and cash equivalents are presented net of bank overdrafts and pledged deposits.

3. Judgements And Estimation Uncertainty

Judgements Made in Applying Accounting Policies

In the process of applying the accounting policies of the Group and the Company, management is not aware of any judgements, apart from those involving estimations, that can significantly affect the amounts recognised in the financial statements.

Sources of Estimation Uncertainty

The key assumptions about the future, and other major sources of estimation uncertainty at the end of the reporting period, that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:-

Allowance for inventories

Reviews are made periodically by management on inventories for excess inventories, obsolescence and decline in net realisable value below cost. These reviews require the use of judgements and estimates. Possible changes in these estimates may result in revisions to the valuation of inventories. The carrying amounts of inventories are disclosed in Note 8.

Impairment of loans and receivables

The Group and the Company make allowance for impairment based on an assessment of the recoverability of loans and receivables. Allowance is applied to loans and receivables when there is objective evidence that the balances may not be recoverable. Management specifically analyses historical bad debts, customer concentration, customer creditworthiness, current economic trends and changes in customer payment terms when making a judgement to evaluate the adequacy of the allowance for impairment. Where expectations are different from previous estimates, the difference will impact on the carrying amounts of loans and receivables as disclosed in Note 9.

The fair values measured are considered to be reasonably close to the carrying amounts reported as the observable current market interest rates also approximate to the effective interest rates of hire purchase payables.

23. Contingent Liabilities - Unsecured

Company

The Company has entered into financial guarantee contracts to provide financial guarantees to financial institutions for credit facilities granted to certain subsidiaries up to a total limit of approximately RM81,412,000 (2015 : RM92,446,000). The total utilisation of these credit facilities as at 31 December 2016 amounted to approximately RM41,978,000 (2015 : RM51,241,000).

The aforementioned financial guarantee contracts should have been recognised in the statement of financial position in accordance with the recognition and measurement policies as stated in Note 2.10. After considering that the probability of the subsidiaries defaulting on the credit lines is remote, the financial guarantee contracts have not been recognised as the fair values on initial recognition are not expected to be material.

24. Financial Risk Management

The activities of the Group expose it to certain financial risks, including credit risk, liquidity risk, currency risk and interest rate risk. The overall financial risk management objective of the Group is to ensure that adequate financial resources are available for business development whilst minimising the potential adverse impacts of financial risks on its financial position, performance and cash flows.

The aforementioned financial risk management objective and its related policies and processes explained below have remained unchanged from the previous financial year.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016 (CONT'D)

24. Financial Risk Management (cont'd)

Credit Risk

The Group's exposure to credit risk arises mainly from receivables and deposits placed with financial institutions. The maximum credit risk exposure of these financial assets is best represented by their respective carrying amounts in the statement of financial position. The Company is also exposed to credit risk in respect of its financial guarantees provided for credit facilities granted to certain subsidiaries. The maximum credit risk exposure of these financial guarantees is the total utilisation of the credit facilities granted as disclosed in Note 23.

As the Group only deals with reputable financial institutions, the credit risk associated with deposits placed with them is minimal. The Group manages its credit risk exposure of receivables by assessing counterparties' financial standings on an ongoing basis, setting and monitoring counterparties' limits and credit terms.

Liquidity Risk

The Group's exposure to liquidity risk relates to its ability to meet obligations associated with financial liabilities as and when they fall due. The remaining contractual maturities of financial liabilities are disclosed in their respective notes.

The Group practises prudent liquidity risk management to minimise the mismatch of financial assets and liabilities whilst maintaining sufficient cash and the availability of funding through standby credit facilities.

Currency Risk

The Group's exposure to currency risk arises mainly from transactions entered into by individual entities within the Group in currencies other than their functional currencies. The major functional currencies within the Group are Ringgit Malaysia ("RM"), Renminbi ("RMB") and US Dollar ("USD") whereas the major foreign currencies transacted are US Dollar ("USD") and Singapore Dollar ("SGD").

The Group observes the movements in exchange rates and acts accordingly to minimise its exposure to currency risk. Where necessary, the Group enters into derivative contracts to hedge the exposure. Such exposure is also partly mitigated in the following ways:-

- (i) The Group's foreign currency sales and purchases provide a natural hedge against fluctuations in foreign currencies.
- (ii) The Group maintains part of its cash and cash equivalents in foreign currency accounts to meet future obligations in foreign currencies.

Based on a symmetric basis which uses the foreign currency as a stable denominator, the following table demonstrates the sensitivity of profit or loss to changes in exchange rates that were reasonably possible at the end of the reporting period, with all other variables held constant:-

	Group	
	Increase/ (Decrease) in Profit 2016 RM	Increase/ (Decrease) in Profit 2015 RM
Appreciation of USD against RM by 10%	2,701,939	2,395,962
Depreciation of USD against RM by 10%	(2,701,939)	(2,395,962)
Appreciation of USD against RMB by 10%	654,459	512,226
Depreciation of USD against RMB by 10%	(654,459)	(512,226)
Appreciation of SGD against USD by 5%	(188,583)	(149,057)
Depreciation of SGD against USD by 5%	188,583	149,057

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016 (CONT'D)

24. Financial Risk Management (cont'd)

Interest Rate Risk

The Group's exposure to interest rate risk arises mainly from interest-bearing financial instruments, namely loans and borrowings.

The Group observes the movements in interest rates and always strives to obtain the most favourable rates available for new financing or during repricing. It is also the Group's policy to maintain a mix of fixed and floating rate financial instruments.

As the Group does not account for its fixed rate financial instruments at fair value through profit or loss or as available-for-sale, any change in interest rates at the end of the reporting period would not affect its profit or loss or other comprehensive income. For floating rate financial instruments stated at amortised cost, the following table demonstrates the sensitivity of profit or loss to changes in interest rates that were reasonably possible at the end of the reporting period, with all other variables held constant:-

	Group	
	Increase/ (Decrease) in Profit 2016 RM	Increase/ (Decrease) in Profit 2015 RM
Increase in interest rates by 100 basis points	(68,253)	(97,629)
Decrease in interest rates by 100 basis points	68,253	97,629

25. Capital Management

The overall capital management objective of the Group is to safeguard its ability to continue as a going concern so as to provide fair returns to owners and benefits to other stakeholders. In order to meet this objective, the Group always strives to maintain an optimal capital structure to reduce the cost of capital and sustain its business development.

The Group considers its total equity and total loans and borrowings to be the key components of its capital structure and may, from time to time, adjust the dividend payouts, purchase own shares, issue new shares, sell assets, raise or redeem debts, where necessary, to maintain an optimal capital structure.

The Group monitors capital using a debt-to-equity ratio, which is calculated as total loans and borrowings divided by total equity as follows:-

	Group	
	2016 RM	2015 RM
Total loans and borrowings	12,994,489	24,004,636
Total equity	131,190,387	115,442,496
Total capital	144,184,876	139,447,132
Debt-to-equity ratio	10%	21%

The aforementioned capital management objective, policies and processes have remained unchanged from the previous financial year.

26. Significant Events During Previous And Current Financial Years

On 4 February 2015, the Board of Directors of the Company ("the Board") received an allegation letter against certain senior management of the Group on misappropriation of the Group's funds of approximately RM3.9 million. Consequently, the Board set up an independent committee ("IC") comprising 3 independent directors of the Company to coordinate and oversee the investigation process of the case.

The IC had on 3 March 2015 finalised the appointment of the following professionals:-

- (i) A legal counsel to advise the IC on matters in relation to the investigation; and
- (ii) An investigation auditor to investigate on, among others, the remittances of funds to foreign companies in the United States of America in 2013 and 2014.

The following were noted from the investigation auditor's report dated 7 July 2015:-

- (i) In 2013 and 2014, approximately USD1.01 million was remitted from the Group to a company incorporated in the United States of America ("USA Company").
- (ii) The remittances were authorised by key members of the senior management of the Group.
- (iii) It appeared that a key member of the senior management of the Group ("Key Member") was connected or related to the USA Company by virtue of his position as a senior management in the USA Company.
- (iv) The remittances of USD1.01 million were ostensibly for two purposes namely, the purchase of assets of USD0.415 million and purported working capital of USD0.595 million including marketing and operating expenses.
- (v) The beneficiary of the remittances appeared to be the USA Company.

After consultation with the legal counsel, the Board demanded the Key Member to unconditionally resign and relinquish all his positions in the Group with no claim against the Group. The Board also demanded and claimed the balance sum of USD0.66 million (being the balance sum remitted to the USA Company after the refund of USD0.35 million) from the Key Member.

The Key Member had on 27 August 2015 tendered his resignation as an executive director and chief executive officer of the Group and had relinquished all his positions in the Group with no claim against the Group. All the assets purchased from the USA Company arising from the remittances had been fully written down/impaired as at 31 December 2015. Pursuant to the settlement agreement dated 27 August 2015 with the Key Member, the Group had fully recovered the loss after receiving a compensation of RM2,749,071 (equivalent to USD0.66 million) from the Key Member on 29 January 2016. The said compensation was recognised as other income during the current financial year (Note 16).

SHARE BUY-BACK STATEMENT

1. Disclaimer Statement

Bursa Malaysia Securities Berhad ("Bursa Securities") has not perused the contents of this Share Buy-Back Statement in relation to the Proposed Share Buy-Back (as defined herein) prior to its issuance, takes no responsibility for the contents of the Statement, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of the Statement.

2. Rationale for the Proposed Renewal of Authority to Dufu Technology Corp. Berhad ("DUFU" or the "Company") to Purchase Its Own Ordinary Shares ("Shares") of up to 10% of its total number of issued shares at any point in time ("Proposed Renewal of Share Buy-Back Mandate")

The Proposed Renewal of Share Buy-Back Mandate, if implemented, will enable the Company to utilize its financial resources not immediately required for use, to purchase its own Shares. The Proposed Renewal of Share Buy-Back Mandate may enhance the Earnings per Share ("EPS") which may have a positive impact on the market price of DUFU Shares. Other potential benefits of the Proposed Renewal of Share Buy-Back Mandate to the Company and its shareholder are as follows:-

- a) To allow the Company to take preventive measures against speculation particularly when DUFU Shares are undervalued which would in turn stabilize the market price of DUFU Shares and hence, enhance investors' confidence;
- b) To allow the Company flexibility in achieving the desired capital structure, in terms of the debt and equity composition, and the size of equity; and
- c) The Purchased Shares may be held as treasury shares and distributed to shareholders as dividends and/or resold in the open market with the intention of realising a potential capital gain if the Purchased Shares are resold at price(s) higher than their purchase price(s).

3. Retained Profits

Based on the Audited Financial Statements of the Company as at 31 December 2016 the retained profits of the Company stood at RM16,797,964.

4. Source of Funding

The Proposed Renewal of Share Buy-Back Mandate will be financed from both internally generated funds and/or external borrowings as long as the amount of fund for the Share Buy-Back has not exceeded the amount of retained profits. The Company has sufficient resource to undertake the Proposed Renewal of Share Buy-Back Mandate in view that the Company has net cash and cash equivalent balance of approximately RM13,604,910 based on the Audited Financial Statements of DUFU as at 31 December 2016.

In the event borrowings are used for the purchase of DUFU Shares, the Board will ensure that the Company has the capability to repay the borrowings and that such repayment will not have a material effect on the Company's cash flow.

Any funds utilized by DUFU for the Proposed Renewal of Share Buy-Back Mandate will consequentially reduce the resources available to DUFU for its operations by a corresponding amount for shares bought back.

5. Interests of Directors' and Substantial Shareholders' and Persons Connected to Them

Save for the inadvertent increase in the percentage shareholdings and/or voting rights of the shareholders in the Company as a consequence of the Proposed Renewal of Share Buy-back Mandate, none of the Directors and Substantial Shareholders of DUFU nor persons connected to them has any interest, direct or indirect, in the Proposed Renewal of Share Buy-back Mandate and, if any, the resale of the treasury shares.

Based on the Register of Directors' Shareholdings and the Register of Substantial Shareholders of DUFU as at 31 March 2017 and assuming that DUFU implements the Proposed Renewal of Share Buy-back Mandate in full, the effects of the Proposed Renewal of Share Buy-back Mandate on the shareholdings of the Directors and Substantial Shareholders of DUFU are as follows:-

SHARE BUY-BACK STATEMENT (CONT'D)

6. Potential Advantages and Disadvantages of the Proposed Share Buy Back

6.1 Potential advantages of the Proposed Renewal of Share Buy-Back Mandate

The potential advantages of the Proposed Renewal of Share Buy-Back Mandate are set out in section 2 of the Statement.

6.2 Potential disadvantages of the Proposed Renewal of Share Buy-Back Mandate

The potential disadvantages of the Proposed Renewal of Share Buy-Back Mandate are as follows:-

- a) The Proposed Renewal of Share Buy-Back Mandate if implemented, will reduce the financial resources of DUFU and may result in DUFU foregoing interest income and/or better investment opportunities that may emerge in the future; and
- b) It would also result in the reduction of financial resources available for distribution in the form of cash dividends to shareholders of DUFU in the immediate future.

Nevertheless, the Board is of the view that the Proposed Renewal of Share Buy-Back Mandate is not expected to have any potential material disadvantages to the Company and its shareholders as it will be implemented only after careful consideration of the financial resources of DUFU and the resultant impact on the shareholders of the Company.

7. Material Financial Effect of the Proposed Renewal of Share Buy-Back Mandate

The material financial effect of the Proposed Renewal of Share Buy-Back Mandate on the share capital, consolidated Net Tangible Assets ("NTA"), working capital, earnings, dividends and the substantial shareholders' shareholdings in DUFU are set out below:

7.1 Share Capital

As at 31 March 2017, the total number of issued shares of DUFU was 175,470,370 Shares, inclusive of 8,651,900 shares held as Treasury Shares. In the event that the 17,547,037 Share representing 10% of the total number of issued shares of the Company are purchased and cancelled, the effect on the share capital of the Company are illustrated as follows:-

	No. of Shares
Total number of issued shares as at 31 March 2017, inclusive of 8,651,900 shares held as Treasury Shares	175,470,370
Less:	
Maximum number of DUFU Shares to be purchased and Cancelled	(17,547,037)
Resultant total number of issued shares	<u>157,923,333</u>

The Proposed Renewal of Share Buy-Back Mandate will not have any effect on the issued and paid-up share capital of the Company as the Shares purchased are to be retained as treasury shares. However, the rights attaching to the treasury shares as to voting, dividends and participation in other distributions or otherwise will be suspended. While these Shares remain as treasury shares, the Companies Act 2016 prohibits the taking into account of such Shares in calculating the number of percentage of Shares for a purpose whatsoever including substantial shareholdings, takeovers, notices, requisitioning of meetings, quorum for meetings and the result of votes on resolutions.

SHARE BUY-BACK STATEMENT
(CONT'D)**7. Material Financial Effect of the Proposed Renewal of Share Buy-Back Mandate (cont'd)****7.2 NTA**

The effects of the Proposed Renewal of Share Buy-Back Mandate on the consolidated NTA of the Group would depend on the purchase price and number of Purchased Shares, the effective funding cost to DUFU to finance the Purchased Shares or any loss in interest income to DUFU.

The Proposed Renewal of Share Buy-Back Mandate will reduce the consolidated NTA per Share at the time of purchase if the purchase price exceeds the consolidated NTA per Share and conversely will increase the consolidated NTA per Share at the time of purchase if the purchase price is less than the consolidated NTA per Share.

Should the Purchased Shares be resold, the consolidated NTA will increase if the Company realizes a capital gain from the resale, and vice-versa. However, the quantum of the increase in NTA will depend on the selling prices of the Purchased Shares and the number of Purchased Shares resold.

7.3 Working Capital

The Proposed Renewal of Share Buy-Back Mandate is likely to reduce the working capital of the Group, the quantum of which would depend on the purchase price of the Purchased Shares, the number of Purchased Shares and any associated costs incurred in making the purchase.

7.4 Earnings

The effects of the Proposed Renewal of Share Buy-Back Mandate on the EPS of the DUFU Group will depend on the purchase price of the DUFU Shares, the number of DUFU Shares purchased and the effective funding cost to DUFU to finance the Purchase Shares or any loss in interest income to the Group.

If the Purchased Shares are to be retained as treasury shares or cancelled subsequently, the number of Shares applied in the computation of the EPS will be reduced, and accordingly, all other things being equal, the Proposed Renewal of Share Buy-Back Mandate will have a positive impact on the EPS of the Group.

In the event the Purchased Shares are resold subsequently, depending on the price at which the said Shares are resold, the Proposed Renewal of Share Buy-Back Mandate may have a positive effect on the EPS of the Group if there is a gain on the disposal and vice-versa.

7.5 Dividends

Assuming the Proposed Renewal of Share Buy-Back Mandate is implemented in full, dividends would be paid on the remaining total number of issued Shares of DUFU (excluding the Shares already purchased). The Proposed Renewal of Share Buy-Back Mandate may have an impact on the Company's dividend policy for the financial year ending 31 December 2017 as it would reduce the cash available which may otherwise be used for dividend payments. Nevertheless, the treasury shares purchased may be distributed as dividends to shareholders of the Company, if the Company so decides.

Any dividends to be declared by DUFU in the future would depend on, *inter-alia*, the profitability and cash flow position of the Group.

7.6 Substantial Shareholders

Shares bought back by the Company under the Proposed Renewal of Share Buy-Back Mandate that are retained as treasury shares will result in a proportionate increase in the percentage shareholdings of the Substantial Shareholders in the Company. Please refer to Section 5 of this Statement for further details.

SHARE BUY-BACK STATEMENT (CONT'D)

8. IMPLICATIONS OF THE PROPOSED SHARE BUY-BACK RELATING TO THE MALAYSIAN CODE ON TAKE-OVERS AND MERGERS, 2016 (THE "CODE")

Based on the Company's total number of issued Shares and the current shareholdings of the substantial shareholders and/or parties acting in concert as at 31 March 2017, none of the substantial shareholders and/or parties acting in concert with them will be required to make a mandatory general offer in the event of the implementation of Proposed Share Buy-Back in full.

DUFU has no intention for the Proposed Share Buy-Back to trigger the obligation to undertake a mandatory general offer under the Code by any of its substantial shareholders and/or parties acting in concert with them, the Board will ensure that only such number of DUFU Shares are purchased, retained as Treasury Shares or cancelled in the manner that the Code will not be triggered.

The Board is aware of the requirements of the Code and will be mindful of the requirements when making any purchase of DUFU Shares pursuant to the Proposed Share Buy-Back.

9. Purchases made by the Company of its own shares in financial year ended 31 December 2016

During the financial year ended 31 December 2016, the details of the shares purchased by the Company were as follows:-

November 2016	1,403,900	0.565	0.595	0.582	821,437.83
	<u>8,651,900</u>				<u>5,011,619.16</u>

* Including brokerage, clearing house fee and stamp duty.

All the shares so purchased during the financial year were retained as treasury shares

10. Public Shareholding Spread

As at 31 March 2017, the public shareholding spread of the Company was approximately 49.7%. In this regard, the Board undertakes to purchase Shares only to the extent that the public shareholding spread of DUFU shall not fall below 25% of the total number of issued shares of the Company (excluding treasury shares) at all times pursuant to the Proposed Renewal of Share Buy-back Mandate, in accordance with Para 8.02(1) and 12.14 of the Bursa Securities Main Market Listing Requirements.

11. Director's Statement

After taking into consideration all relevant factors, the Board is of the opinion that the Proposed Renewal of Share Buy-Back Mandate described above is in the best interest of the Company.

12. Director's Recommendation

The Board recommends that you vote in favour of the ordinary resolution to be tabled at the forthcoming Fifteenth Annual General Meeting to give effect to the Proposed Renewal of Share Buy-Back Mandate.

13. Further Information

There is no other information concerning the Proposed Renewal of Share Buy-Back Mandate as shareholders and other professional advisers would reasonably require and expect to find in the Statement for the purpose of making informed assessment as to the merits of approving the Proposed Renewal of Share Buy-Back Mandate and the extent of the risks involved in doing so.

Explanatory Note On Special Business:

- Resolution pursuant to Authority to issue Shares

The proposed **Resolution No. 8** [Item 6(a)], if passed, will grant a renewed general mandate (Mandate 2016) and empower the Directors of the Company to issue and allot shares up to an amount not exceeding in total ten per centum (10%) of the issued share capital of the Company from time to time and for such purposes as the Directors consider would be in the interest of the Company. In order to avoid any delay and costs involved in convening a general meeting, it is thus appropriate to seek shareholders' approval. This authority will, unless revoked or varied by the Company in general meeting, expire at the next Annual General Meeting of the Company.

The Mandate 2016 will provide flexibility to the Company for allotment of shares for any possible fund raising activities, including but not limited for further placing of shares, for the purpose of funding future investment(s), acquisition(s) and/or working capital.

As at the date of this Notice, the Company did not issue any shares pursuant to the mandate granted to the Directors at the Thirteenth Annual General Meeting. The Company did not issue any share pursuant to the mandate granted because there was no investment, acquisition or working capital that required fund raising activity.

- Resolution pursuant to the Authority to Purchase its own Shares

The proposed **Resolution No. 9** [Item 6(b)], if passed, will give the Directors of the Company authority to purchase its own shares up to ten per centum (10%) of the issued and paid-up share capital of the Company. In order to avoid any delay and costs involved in convening a general meeting, it is thus appropriate to seek shareholders' approval. This authority, unless revoked or varied by the shareholders of the Company in general meeting, will expire at the conclusion of the next Annual General Meeting.
